

**CENTRAL BOHEMIA**

Join us on a journey through the regions of Central Bohemia. We will take you to over 50 places that no traveller or adventurer should miss. Wander with us through untouched countryside, discover technical monuments, get to know customs and crafts that breathe life into Central Bohemia, and listen to ancient and contemporary stories connected with the largest region of the Czech Republic.

Perhaps no other Czech region deserves to be labelled “diverse” more than Central Bohemia, which surrounds Prague like a ring. You will discover that the north is not like the south, and the west is different from the east. Central Bohemia became the cradle of Czech statehood, the home of kings and queens of Bohemia, and the place of their magnificent monarchical deeds. Seemingly silent witnesses to the most important historical decisions are majestic castles, Přemyslid hillforts, sumptuous châteaux, manor houses and picturesque towns.

Central Bohemia is enticing for its accessibility. A dense network of roads will satisfy any avid driver. But if you prefer romantic railway rides, you won't be disappointed either. Railway lines spread out like rays from the heart of the capital to almost all corners of Central Bohemia. You can look forward to a journey through a rugged relief, along meandering rivers or through dense forests, which, just like in the times of powerful rulers of the past, still teem with wildlife today. Rather than a mundane trip, you can enjoy a unique experience where you won't know what to look at first.

Just turn the page, and a new world will open up before you! A world full of unforgettable adventures, abundant history and living traditions.
